An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Michael McNeil on March 9, 2007.

The application has been amended as follows: Claim 11 depends on – claim 9 – instead of canceled “claim 10”.

Allowable Subject Matter

Claims 1-9 and 11-14 allowed.

The closest relevant art is Gullett (5,846,416) wherein Gullett discloses a filter assembly (10) comprising a center support (40, col. 5, lines 39-45) having a filter head attachment (30) at one end, a bowl attachment (21) at an opposite end, and a plurality of radial openings (53) disposed on the center support (40) and being located between the two ends, and a filter element (50) mounted on the center support (40). Gullett further discloses connecting means (200, col. 4, lines 27-29, lines 38-40, col. 5, lines 14-18) for connecting or engaging the two attachments to the center support. Gullett also discloses a center support is threaded (see col. 2, lines 46-51, col. 3, lines 26-30 and lines 48-54, col. 6, lines 1-9), therefore, it is inherently understood that the threaded end of the center support would provide rotatable attachment to and detachment from a filter head. Gullett also discloses a method of servicing a filter comprising the steps of detaching the center support from the filter head and reattaching the center support to

the filter head. It is inherently understood that once the filter element is removed from the center support, the filter element is cleaned or washed before being put back on the center support for servicing.

Claims 1-9 and 11-14 differ from the disclosure of Gullett in that the center support has a bowl attachment adjacent an opposite end for rotatable attachment to and detachment from a bowl, and this feature is not disclosed by Gullett.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
